

Sullins Academy Student Growth on the Stanford 10 Assessment: Spring 2023 to Spring 2024

The chart below provides a snapshot of student growth on the Stanford 10 Complete Battery assessment at Sullins Academy from Spring 2023 to Spring 2024. The **Complete Battery Median Grade Equivalent** represents the typical grade level at which a student is performing based on their test results.

How to Read the Chart:

- The **Current Grade Level (2024-2025)** column indicates the student's grade this school year.
- The **Spring 2023 Median Grade Equivalent** column reflects the average performance level of students when they were **two grade levels below their current placement**.
- The **Spring 2024 Median Grade Equivalent** column reflects the average performance level of students when they were **one grade level below their current placement**.
- The **Growth** column shows how much students advanced academically from Spring 2023 to Spring 2024. A positive number indicates that students, on average, gained **more than a full year's worth of academic growth in just one school year**.

Key Takeaways:

- Most grade levels show **more than a full year of academic growth**, with some grades advancing by **1.5–1.8 grade levels** in a single year.
- This data confirms that Sullins students are making **exceptional academic strides**, often exceeding the expected one-year growth benchmark.
- In 8th grade, where the growth appears slightly negative (-0.1), it's important to remember that as students reach higher grade levels, the pace of median grade equivalent growth tends to slow. This **plateau is typical in standardized testing** as students near the upper limits of the assessment.

Overall, these results reflect **strong academic development** across all grade levels, reinforcing our commitment to providing a robust and effective learning environment.

Current Grade Level (2024-2025)	Complete Battery Median Grade Equivalent (Spring of 2023)	Complete Battery Median Grade Equivalent (Spring of 2024)	Complete Battery Median Grade Equivalent Growth
1st Grade	N/A	1.5	N/A
2nd Grade	1.6	2.8	(+) 1.2
3rd Grade	2.7	4.3	(+) 1.6
4th Grade	3.7	5.5	(+) 1.8
5th Grade	4.9	6.5	(+) 1.6
6th Grade	7.7	8.7	(+) 1.0
7th Grade	8.2	10.0	(+) 1.8
8th Grade	9.0	8.9	(-) 0.1
9th Grade	10.8	11.3	(+) 0.5
